

# SCHWEGLER 1FS COLONY BAT BOX 95 10609

**SPECIES:** BAT

**MATERIAL:** Woodcrete

**DIMENSIONS (MM):** ø 280 x 440

**WEIGHT (KG):** 10

This box is suitable as a summer and temporary roost. We recommend the Type 1FW for overwintering or hibernation.

**INTERIOR:** The front panel consists of triple corrugated wooden boards. On the inside of the roof there is a special clinging panel with insulated mesh, where Bats find optimum clinging and clutching/clawing sites. Removable front panel for inspection and cleaning.

**INCLUDES:** Nest box, hanger with mounting blocks and aluminium nails.

**SPECIES:** This type of box is readily used for forming large colonies, especially by Common Noctule Bats, Daubenton's Bats and Brown Long-Eared Bats. Nursery roosts with between 70 and 100 animals (including Noctule Bats) are common.

**SITING:** Attach to a tree using the mounting block and aluminium nails (included)

**MAINTENANCE:** Regular removal of the droppings is recommended in case of high occupancy figures. It is also useful for estimating the occupancy and acceptance of the box.
